The Worley Advanced Coronary Sinus Guide has a **BRAIDED CORE** that can be advanced to create **VARIABLE CURVES** to match your patient's anatomy. The Worley Advanced LVI Lateral Vein Introducer offers you the **FLEXIBILITY** you need for reliable, accurate placement of LV leads. The accordion hub of the Worley Vein Selector minimizes kinking and enhances **STEERABILITY**, handling, and control when navigating tortuous anatomy. The Worley CA KIT combines all of the products you need to gain clear, sustained visibility of coronary venous anatomy. To **OPTIMIZE** your lead management, Merit also offers two endovascular snare systems.
